Subpart H—Records

§17.161 General.

Each person claiming drawback on taxpaid distilled spirits used in the manufacture of nonbeverage products shall maintain records showing the information required in this subpart. No particular form is prescribed for these records, but the data required to be shown shall be clearly recorded and organized to enable appropriate ATF officers to trace each operation or transaction, monitor compliance with law and regulations, and verify the accuracy of each claim. Ordinary business records, including invoices and cost accounting records, are acceptable if they show the required information or are annotated to show any such information that is lacking. The records shall be kept complete and current at all times, and shall be retained by the manufacturer at the place covered by the special tax stamp for the period prescribed in §17.170.

§ 17.162 Receipt of distilled spirits.

- (a) Distilled spirits received in tank cars, tank trucks, barrels, or drums. For distilled spirits received in tank cars, tank trucks, barrels, or drums, the manufacturer shall record, with respect to each shipment received—
 - (1) The date of receipt;
- (2) The name and address of the person from whom received;
- (3) The serial number or other identification mark (if any) of each tank car, tank truck, barrel, or drum;
- (4) The name of the producer or warehouseman who paid or determined the tax;
- (5) The effective tax rate (if other than the rate prescribed by 26 U.S.C. 5001); and
- (6) The kind, quantity, and proof (or alcohol percentage by volume) of the spirits.
- (b) Distilled spirits received in bottles. For distilled spirits received in bottles, the manufacturer shall record—
 - The date of receipt;
- (2) The name and address of the seller;
- (3) The serial number of each case, if the bottles are received in cases;
 - (4) The name of the bottler;

- (5) The effective tax rate (if other than the rate prescribed by 26 U.S.C. 5001); and
- (6) The kind, quantity, and proof (or alcohol percentage by volume) of the spirits.
- (c) Distilled spirits received by pipeline. For distilled spirits received by pipeline, the manufacturer shall record—
 - (1) The date of receipt;
- (2) The name of the producer or warehouseman who paid or determined the tax;
- (3) The effective tax rate (if other than the rate prescribed by 26 U.S.C. 5001); and
- (4) The kind, quantity, and proof (or alcohol percentage by volume) of the spirits.
- (d) Determination of quantity. At the time of receipt, each manufacturer shall determine (preferably by weight) and record the exact number of proof gallons of distilled spirits received. The amount received in bottles may be determined by the required statements on the labels. The amount received in sealed drums with no evidence of leakage may be determined from the record of shipment, which is required by §19.780 of this chapter to accompany spirits received from a distilled spirits plant. If spirits are received in a tank car or tank truck, and the result of the manufacturer's gauge of the spirits is within 0.2 percent of the number of proof gallons reported on the record of shipment required by §19.780, then the number of proof gallons reported on that record may be recorded as the quantity received. Nevertheless, the receiving gauge shall be noted on the record of receipt. If, for any shipment, the amount recorded in the manufacturer's records as the quantity received is greater than the amount shown as taxpaid on the record required by §19.780, a deduction equivalent to the excess shall be made from the amount of drawback claimed in the manufacturer's claim covering that period. If no claim is filed for that period, then the deduction shall be made in the manufacturer's next claim. Losses in transit that exceed the 0.2 percent limitation provided in this paragraph shall be determined and noted on the record of receipt. Such losses shall not be recorded as distilled spirits received.
